KEYLESS SECURITY PRODUCTS

DIGITAL GUARD DAWG: KEYLESS IGNITION MODULE

This amazing new product from Digital Guard Dawg will make your ignition key a thing of the past! The DGD-KIM Keyless Ignition Module uses security technology similar to that found on Mercedes, Corvette and Lexus — simply carry a digital RFID "Dawg Tag" with you, and when you're ready to ride, flip your Run switch to On, thumb the start button and go. When your ride is over, kill the engine and walk away. Your bike is automatically protected! For more information, call 916.337.1040 or visit www.digitalguarddawg.com.

PAUGHCO: BULLET HEADLIGHT

Setting the standard for traditional styling and functionality, Paughco's universal Bullet headlight is one of the most versatile and widely used custom headlights on the market. Featuring a bullet shaped housing, easily replaceable 5-1/2" 12-volt sealed beam unit, convenient spade bottom mount and Paughco's durable chrome finish, this Chopper headlight is just what you're looking for. For more information, call 800.423.2621 or visit www.paughco.com.
